## ROUND STONES

Round Stones are loose crystal elements. Most of them are pointed on the reverse side, making them easy to apply in either metal claw settings or pre-set cavities.

The assortment features a wide variety of different cuts and sizes, the most innovative one being the XIRIUS Chaton and the smallest one being the XERO Chaton in size PPO.

The science of the cut and the celebration of crystal as high art come together in the XIRIUS Chaton, Swarovski's most brilliant crystal element ever.

Merging a gemstone-like cut with rich, varied color and Platinum Pro colored foiling for exceptional durability, XIRIUS takes crystal one step closer to the diamond.

**Classic Colors/Effects:**  
This color range offers a wide choice of traditional Swarovski crystal colors and effects.

**Exclusive Colors/Effects:**  
This color range is offered exclusively by Swarovski.

The plating resistance of effects is tested according to Swarovski's plating guidelines (SWAROVSKI.COM/PROFESSIONAL). Customers are advised to carry out their own tests if customers' plating parameters diverge from Swarovski plating guidelines.

Colors and effects can appear different when illuminated with different light sources. Swarovski uses standard light source D50 for color decision and comparison. Slight changes in shades are unavoidable. Colors may vary according to cut and foiling.

The composition of Advanced Crystal is compliant with regulatory industry norms and laws regarding the restriction or prohibition of certain substances in the most relevant segments of our customers. Please note that the compliance of the crystal colors Citrine, Fireopal, Hyacinth, Light Siam, Siam and Yellow Opal vary to certain industry regulations. Those regulations are indicated with an (\*) in the compliance overview. Indian Siam (option to Lt. Siam) and Tangerine (option to Sun) conform to all CLEAR-lists.

ATELIER MUNSTEINER FOR SWAROVSKI

## Vision Round Stone

The new Vision Designer Edition marks the first ever collaboration between Swarovski and Atelier Munsteiner, a German design house renowned for its multi-award-winning gemstone cuts, fine jewelry, and sculptures. The family-owned company's third-generation master craftsmen have drawn upon many years of experience to develop this stunning crystal innovation exclusively for Swarovski.

The Vision Designer Edition combines the uncomplicated appeal of simple cuts with the playfulness of mirrored reflections. These ingeniously crafted design elements

bring to mind frozen water, with mysteriously encapsulated air bubbles forming a perfectly geometrical, flower-like shape within the crystal. It is available in three of the most popular shapes for Jewelry and Accessories – the round, square, and hexagon – offering endless design possibilities and making it ideal for use in Glamorous and Progressive creations.

It's the subtlety in the simplicity that makes this Designer Edition truly "VISIONARY."

OCEAN MYSTERIES DESIGNED  
BY CÉLINE COUSTEAU

**Design Story:** A love for the sea runs through her veins: Céline Cousteau is a celebrated filmmaker, humanitarian, and environmentalist, and, as it so happens, the granddaughter of legendary ocean explorer Jacques Yves Cousteau. She presents her first ever crystal designs for Swarovski, inspired by one of her favorite places, the depths of the ocean. Taking inspiration from nature itself

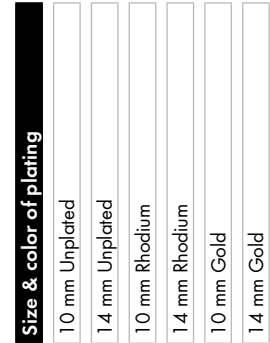

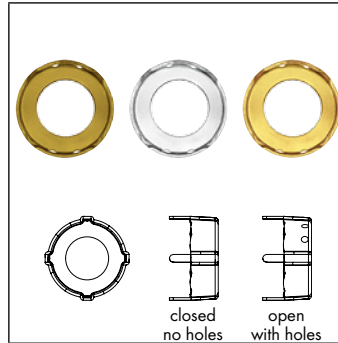

and leaving its beauty unaltered, her stunningly life-like creatures are not only captivating and spellbinding, they also draw attention toward the mysterious, mostly unseen, and unexplored world beneath the ocean's surface on which all ocean life depends. These mysteries need to be protected for future generations, both above and below the water.
